## SAM Compliance Assessment

**Identify your current state of compliance.**

Whether you've been approached by a software publisher or simply want to conduct a quick self-audit, our Compliance Assessment is the perfect service for obtaining a one-time evaluation and clean-up of your existing software license situation.

The Compliance Assessment gathers key information for determining IT risk avoidance strategies. After distributing a proper SAM tool to analyze and document your software portfolio, ON-LINE SAM experts help you:

**Optimize, manage, and maintain your most critical assets.**

Have you come to the realization that a dedicated software asset management (SAM) practice provides significant long-term ROI, but also realized that you don't have the resources to fully manage a SAM practice yourself?

ON-LINE Managed SAM Services ensures the proper implementation of a tailored and optimized SAM practice with a roadmap specifically designed to guide the project's lifecycle:
