

HÅG CAPISCO® COLLECTION

Are you willing to try an unconventional chair? With the saddle seat you can vary between low and high working positions - right up to standing positions, allowing you to be more dynamic, but still in balance. The collection has won several awards for its unique functions and design.

Design: Peter Opsvik

BACK HEIGHT:

From a seated position, the back height is easily adjusted using a button located behind the chair back.

SEAT DEPTH:

Seat is easily set with a lever on the left-hand side under the seat.

SEAT HEIGHT:

From a seated position, the seat height is easily set with a lever located on the left-hand side of the chair.

OPTIONAL HEADREST:

The gap between the chair back and the headrest allows freedom of movement. The headrest is easy to adjust up, down, forward or backward - for the best possible rest and support of shoulders, neck and head.

FOOT SUPPORT:

The foot support is comfortable to use when you want to vary the position of your feet.

USER INSTRUCTIONS:

Each HÅG Capisco model includes an adjustment guide located in a pocket underneath the seat.

COUNTER CHAIR:

HÅG Capisco is also available with a stool kit.
